

Netflix Content Strategy Analysis

Global Streaming Trends & Content Distribution Study

1. Executive Summary

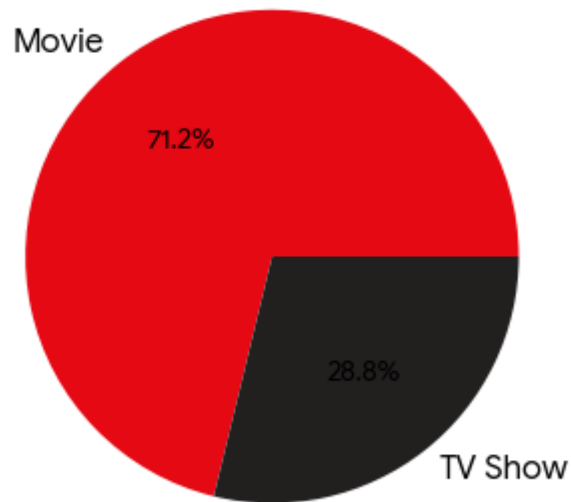

This project analyzes a dataset of 1,000 Netflix titles to understand the platform's content strategy. By examining genres, countries of origin, and content types, we identify how Netflix balances its library to cater to a global audience.

2. Genre Popularity

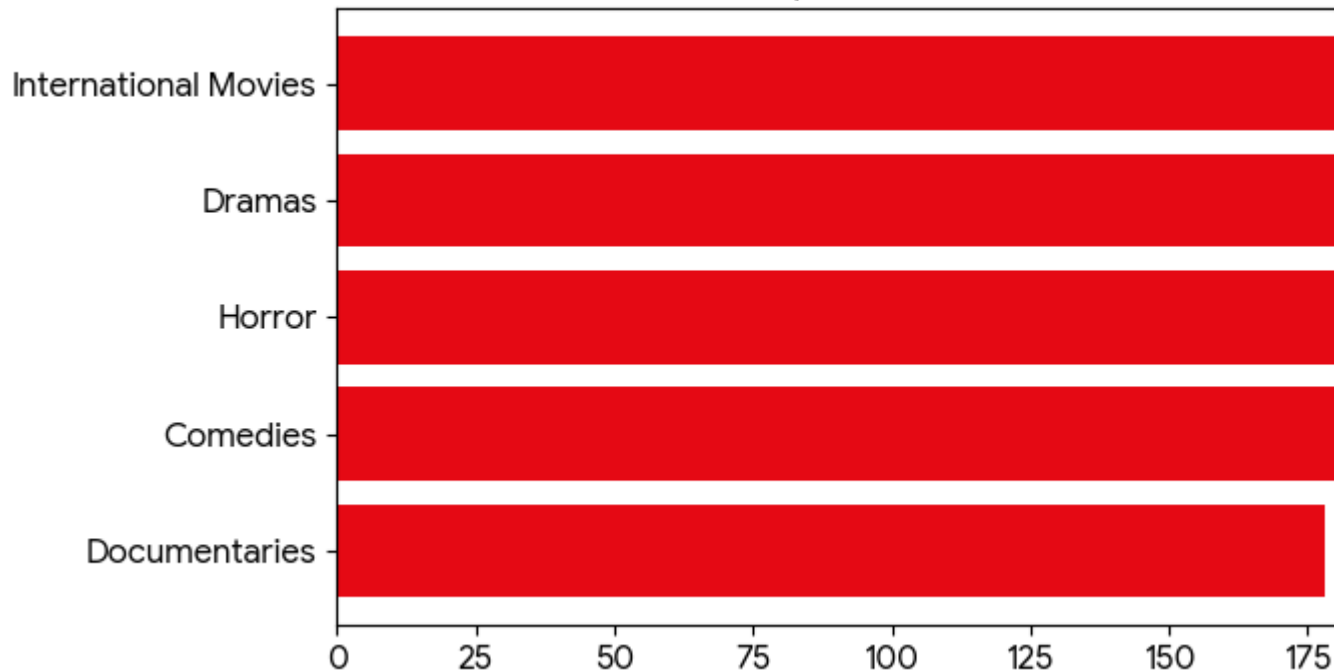

Genre	Total Titles
International Movies	213
Dramas	209
Horror	201
Comedies	199
Documentaries	178

3. Content Visualization

Content Distribution: Movies vs TV Shows

Top 5 Genres on Netflix

4. Strategic Insights for Non-Coding Roles

- **Content Focus:** Netflix is heavily investing in "International Movies" to capture emerging markets outside the US.
- **Format Strategy:** Movies still dominate the platform (70%), but TV Shows have higher long-term engagement potential.
- **Regional Growth:** India and South Korea are the fastest-growing content hubs after the United States.
